

CLO

The CLO emblem combines letters in the form of stitches with the shape of a fabric wave, creating a three-dimensional form that aptly represents our 3D software. It symbolizes our ambition and adaptability in a rapidly changing environment. By using a color that represents trustworthiness, we wanted to highlight the connection between CLO and its users, delivering a sense of stability and calmness.

CLO의 엠블럼은 Stitch 형태로 이루어진 글자와 Fabric wave의 형상을 결합하여 3D 소프트웨어에 걸맞는 입체적인 형태로 탄생했습니다. 이는 빠르게 변화하는 환경 속에서도 유연함을 가진 우리의 끊임없는 도전정신과 적응력을 상징합니다.

깊이 있는 신뢰를 상징하는 색상을 사용하여 CLO와 사용자의 유대감을 나타내고자 했으며, 사용자에게 안정감과 차분한 느낌을 전달합니다.

Clear Space

Clear space is a crucial element in emblem design.

Clear space places empty spaces around the emblem, ensuring that it remains distinct and avoid overlap with other graphic elements or text.

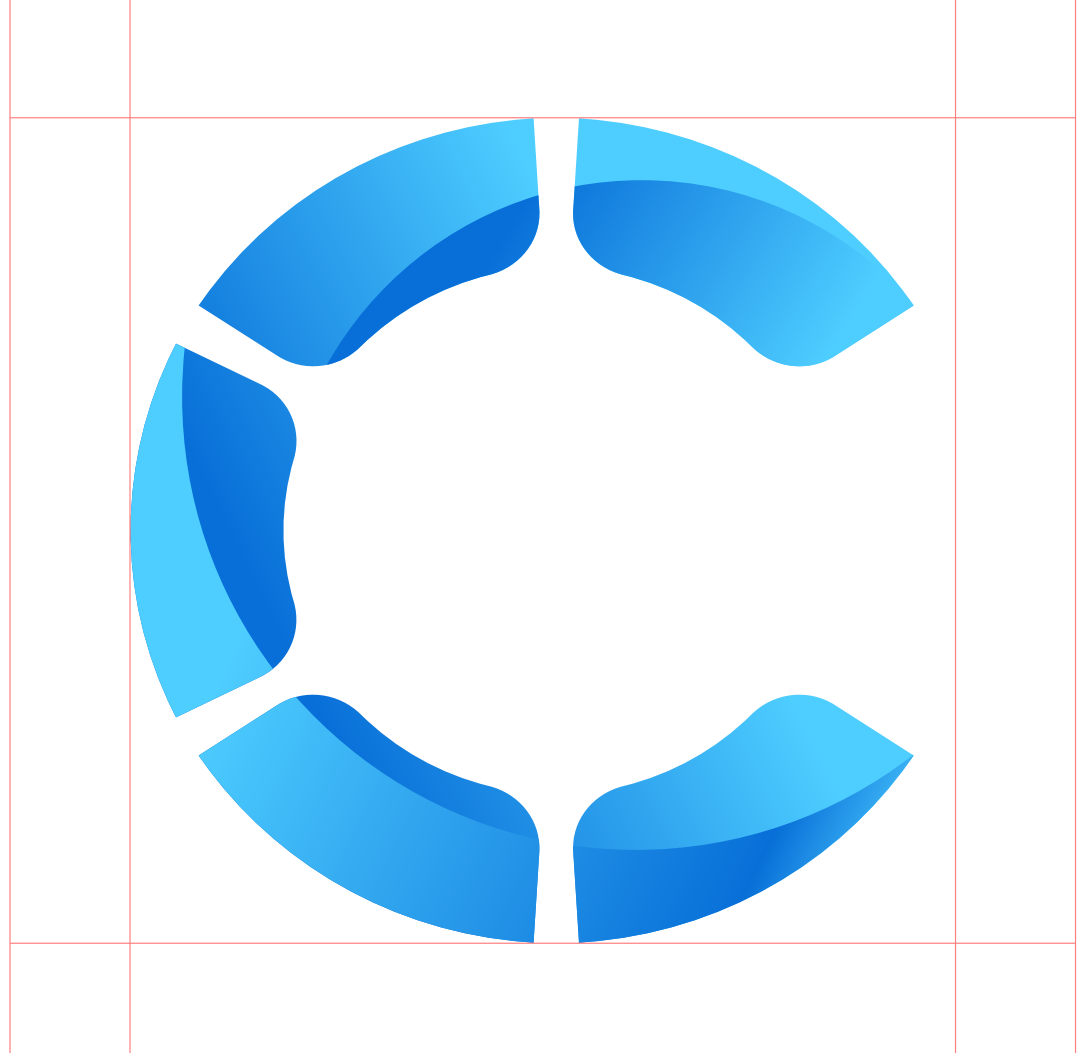

This enhances the legibility of the emblem and prevents visual clutter, allowing the emblem to be conveyed clearly as intended.

Additionally, clear space helps maintain brand consistency, ensuring that the emblem is consistently recognized across various media and contexts.

엠블럼 디자인에서 클리어 스페이스는 중요한 요소입니다. 클리어 스페이스는 엠블럼 주변에 빈 공간을 두어, 엠블럼이 다른 그래픽 요소나 텍스트와 겹치지 않고 독립적으로 잘 보이도록 합니다.

이는 엠블럼의 가독성을 높이고 시각적 충돌을 방지하여, 엠블럼이 본래의 디자인 의도대로 명확하게 전달될 수 있게 합니다. 또한, 클리어 스페이스는 브랜드의 일관성을 유지하고, 엠블럼이 다양한 매체와 상황에서 일관되게 인식되도록 합니다.

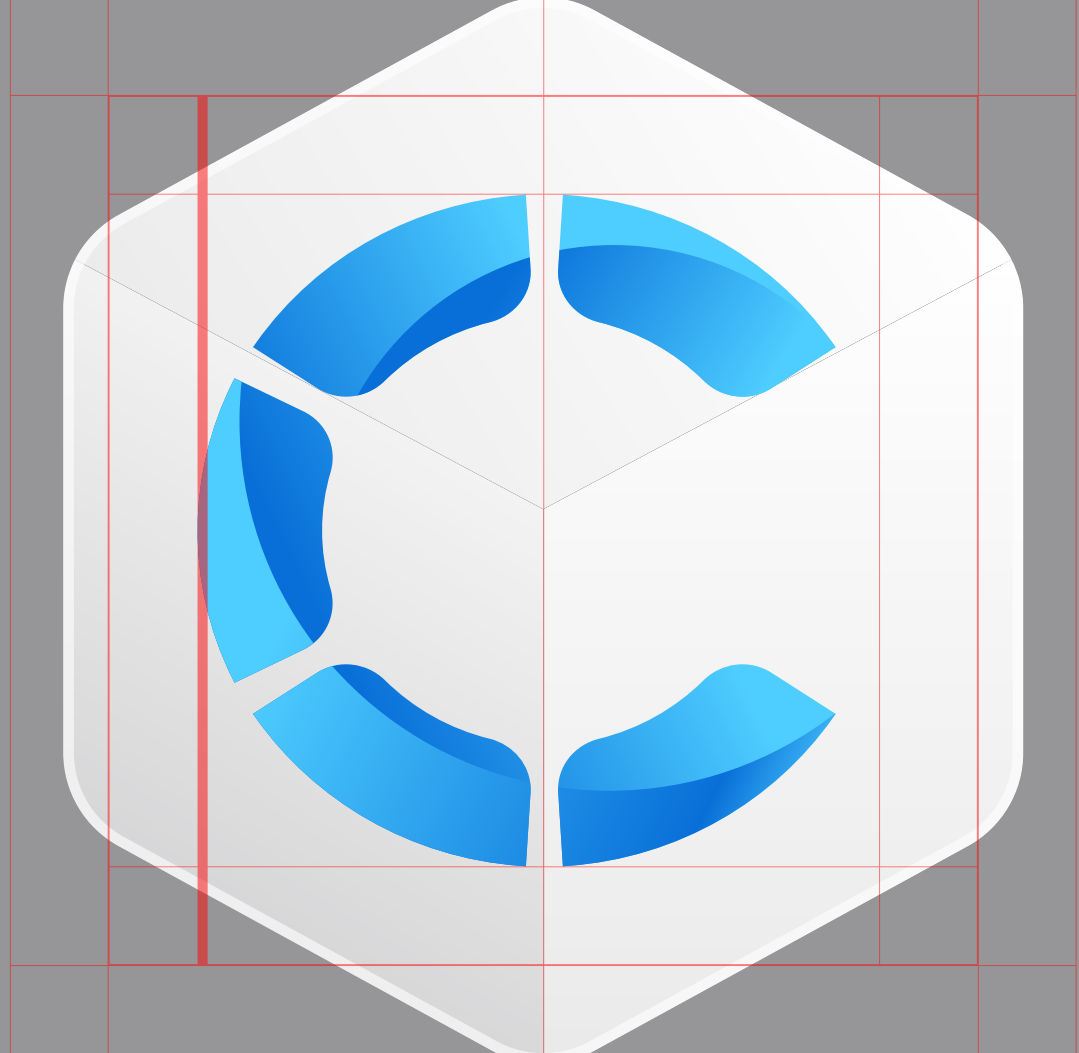

Emblem

Hexagon Package

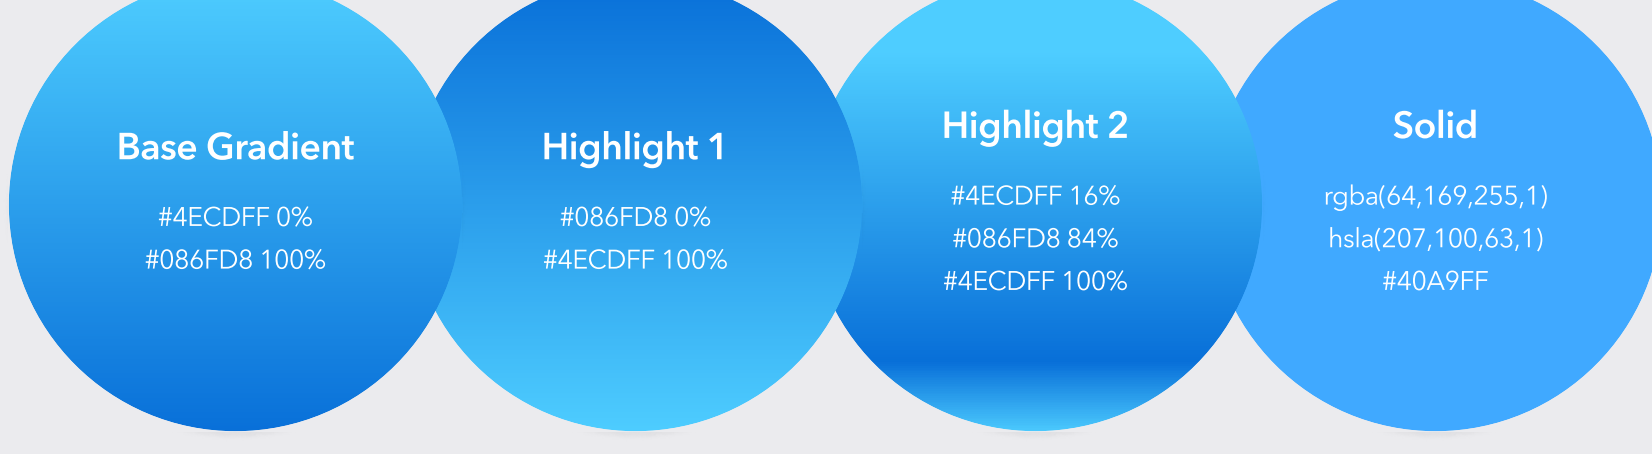

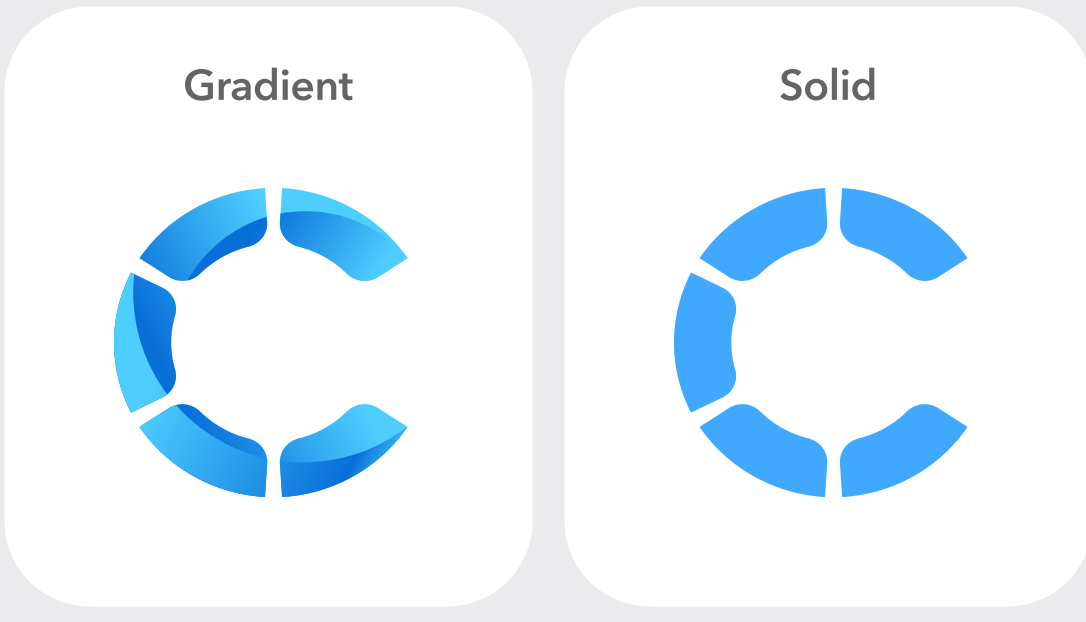

When applying the emblem to hexagon packaging, place the CLO emblem at the left to provide a sense of stability.

hexagon 패키징에 CLO 엠블럼을 적용할 때는 엠블럼의 위치를 왼쪽으로 배치하여 안정감을 줍니다.

Achieving Visual Integration with Diversity and Consistency

Hexagon Emblem Package

Designing an emblem package to encompass multiple brands is essential.

Utilizing a hexagon shape to encapsulate existing emblems provides an effective means of maintaining consistency while highlighting each brand's uniqueness. This design approach ensures that the individual identity of each brand is preserved while fostering a cohesive visual impression that reinforces their collective association.

엠블럼 패키지 디자인은 각 브랜드의 고유성을 강조하면서도 통일성을 유지하는 중요한 과제입니다.

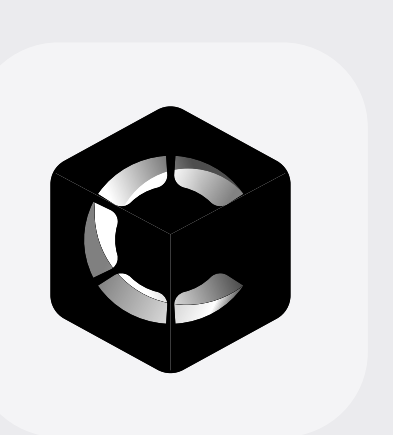

hexagon 디자인의 디자인은 다양한 브랜드 엠블럼을 포괄하면서도 통일성을 확보하는 효과적인 방법으로, 각 브랜드의 식별성을 보존하면서도 통합된 시각적 인상을 제공합니다.

이런 디자인 패키징은 각 브랜드의 독특한 캐릭터를 존중하면서도, 함께 속한 하나의 그룹이라는 인식을 강화합니다.

Emblem & Hexagon White & Gray

Hexagon Free Design

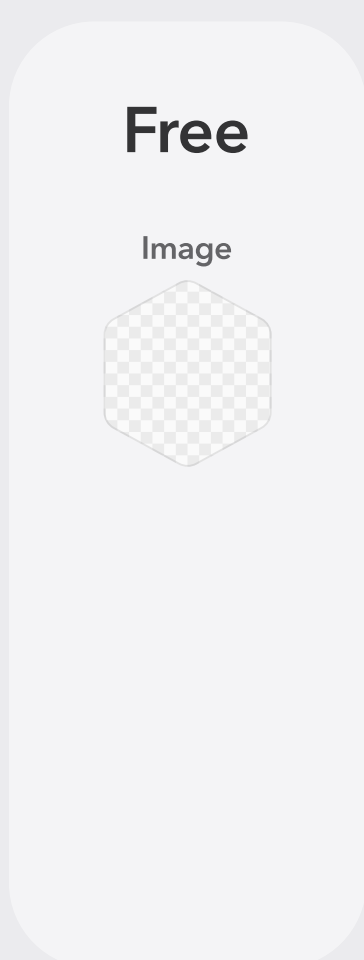

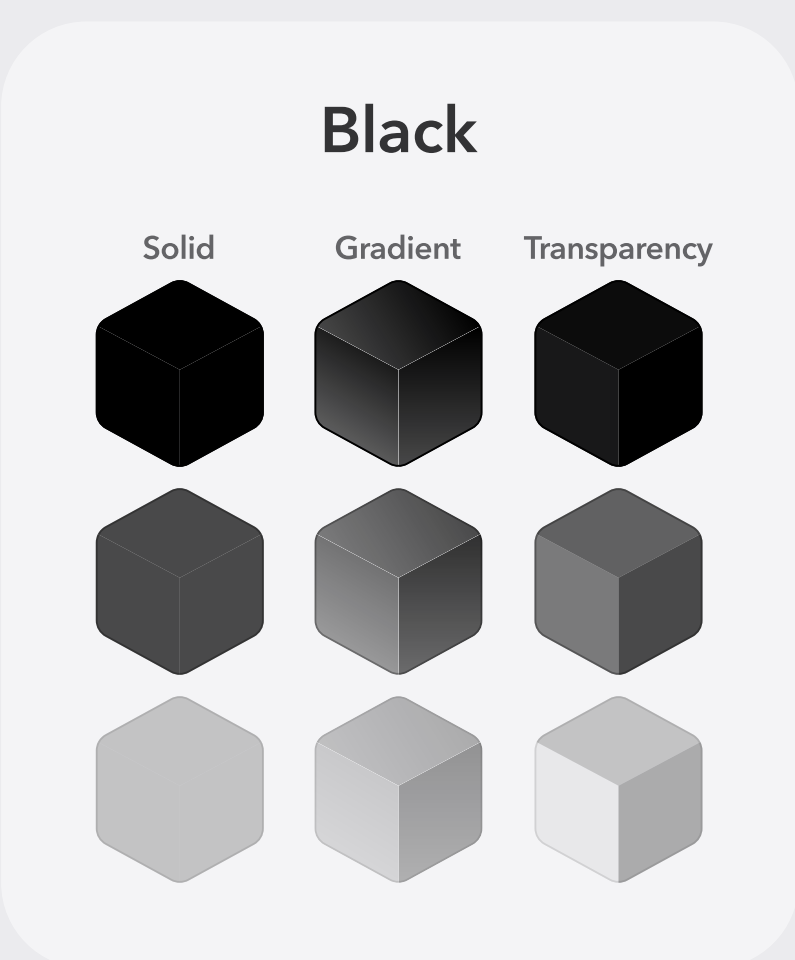

The hexagon design emblem allows the background hexagon to have various style modifications.

We permit this hexagon to be applied with a sense of depth or to incorporate different colors and patterns.

However, the unique emblem must remain intact and unaltered. The flexible modifications are limited to the colors within the hexagon.

hexagon 디자인의 엠블럼은 배경이 되는 hexagon이 다양한 스타일 변형을 가질 수 있습니다. 우리는 이 hexagon이 입체감 있게 적용되거나 여러 컬러와 패턴을 적용할 수 있도록 허용합니다.

그러나 고유한 엠블럼은 훼손하지 않고 유지해야 합니다. 자유 변형은 hexagon 내부의 컬러 정보로 제한됩니다.

CLO Application Icon Package

Depending on the situation where the icon design is updated with the splash each time the software is released, we needed a software app icon that could clearly identify differences in software versions while maintaining consistency. This allows users to easily recognize new upgrade versions of the software with just the icon.

This is the emblem for the next 2025.0 release with a splash, in the future, when visual identification within the product is required, it will be validated in this variant manner.

소프트웨어가 릴리즈될 때마다 아이콘 디자인이 스킴과 함께 업데이트되는 상황에 따라, 일관적인 불은 유지하면서도 소프트웨어 버전의 차이를 명확히 식별할 수 있는 소프트웨어 앱 아이콘이 필요했습니다.

이를 통해 유저들은 아이콘만으로도 새로운 버전의 업그레이드를 쉽게 인식할 수 있습니다.

해당 엠블럼은 다음 2025.0 릴리즈 스킴을 위한 엠블럼이며, 앞으로 프로젝트 내 시각적 식별이 필요할 때 이러한 변형 방식으로 배리어이션 될 예정입니다.

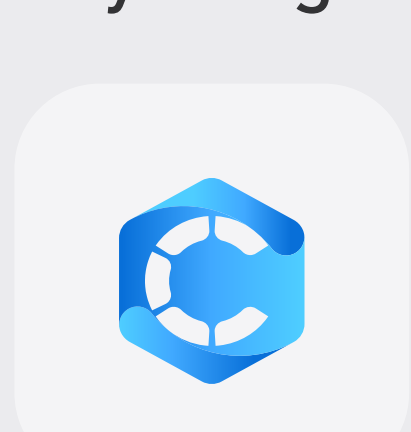

It should be used primarily for visual identification of the software version updates.

When displaying a software installation or running, use the emblem in the appropriate type to indicate a specific software version.

*If it is packaged and shown with a Marvelous Designer emblem, we recommend harmoniously using this type of emblem.
